## Vote for Oliver and the Railway.

Do you vote for Edmonton as a City or for Edmonton as a Village?

Do you vote for Edmonton on a world's highway of commerce or for Edmonton at the extreme limit of the railway system of the continent?

Do you vote for a railway project which is the embodiment of the fixed policy of a great and united party, or do you vote to throw the whole question of a transcontinental railway into the melting pot of party politics, with no assurance of a fixed policy on the part of any one?

Do you vote for a sure thing, or do you vote to take chances?

Remember that in this case you vote is not an opinion, it is a mandate which must be obeyed and which cannot be recalled.

Use your vote to protect your interests.

## FACE TO FACE JAPANESE AND THE RUSSIANS

Are Face to Face at Mukden and a Big Battle is Imminent.  
Russia-England Situation.

Mukden, via Peking, October 31.—The manifestations of the Japanese in their centre which now converges at a point where the plain meets the hills has attained the greatest importance. The manifestations are being fully met by the Russians so that the situation at this point of the prospective battlefield is now one of the greatest interest and apprehension. At the present moment the trenches on both sides are crowded with troops and at many places the Japanese and Russians are within hailing distance.

St. Petersburg, November 1st.—The Admiralty claim that Rojstvensky can prove that all of his torpedo boats were sixty to a hundred miles ahead of the squadron when the North Sea incident occurred. There is more disposition now at the Admiralty than within the past few days to suspend judgement until all the facts are established by the commission. Little is now heard of British complications in the alleged plot to detain the Russian squadron.

Mukden, via Peking, November 1.—The situation here is perhaps the most remarkable in military annals. Two armies, each with the other as the object, are approaching while constructing siege works, the making of which both sides are accelerating each morning revealing the work done each night.

The Japanese after their disaster at Manan Hill, retaliated on October 27 turning the Russians from the hill opposite Fenching, seven miles to the east. The Russians were commanded from three directions and lost a loss of sixty persons from

artillery fire on the afternoon of the 27th, before they were forced out by the Japanese infantry. At night the Japanese abandoned this position immediately after it was taken. This event does not equal in importance the capture of Manan Hill. The Japanese, who are posted on a sunnier hill to the south appear now to have most determined designs to relieve the position they abandoned last night. There was the heaviest bombardment of the week from the Russian batteries, and the Russians are seemingly apprehensive of a Russian surprise. This bombardment was accompanied by a continuous rifle fire, while the infantry advanced by means of quick entrenching at intervals of a few hundred feet under cover of the darkness. The outcome of this activity is intense vigilance along the entire extended front. This tension, taken in connection with the reported reinforcement of the Japanese by a division from Port Arthur is likely to precipitate a general battle within a few days. The combatants, however, apparently are no inclined to winter in the present positions.

St. Petersburg, November 1.—General Sakharoff sends a dispatch to the general staff dated to-day. It says: "A Japanese attack on the Russian entrenchments north of Sushinpu on October 30, was repulsed. The Japanese artillery commenced the bombardment of the right positions about ten o'clock at night and kept it up until two next morning. A Japanese advance against the Russians near the village of Tunggo was discovered last night and was met by the Russian artillery. The health of the troops is good."

### C. N. R. NOTES

Word has been received in the city that all the rafts of timber and constructive material for the Canadian Northern railway bridge at Battleford, except ten, have arrived there. This means that the great quantity of timber required for the construction of this bridge has safely reached its destination. The other ten rafts are reported very near Battleford.

The successful rafting of this bridge and pile timber to Battleford demonstrates the practicability of the Saskatchewan for shipping purposes. The timber was sent down the river during the most unfavorable season. The water was very low, and many people doubted if the rafts would get through to Battleford this fall. The people of the Saskatchewan valley were particularly anxious that the timber be not through to Battleford without any delay, and it is well known that the Canadian Northern railway company will rush work on this bridge during the coming winter so that trains will be able to run west from Battleford over the bridge next spring. For this reason there is a good deal of satisfaction over the arrival of the rafts at Battleford.

Engineer MacFarlane has been engaged during the past summer in running the final location line for the Canadian Northern from Battleford to Edmonton. He is now camped on this side of Fort Saskatchewan, and will finish the location to Edmonton in a few days.

### C. N. R. at the Fort

Reporter.  
The people of Fort Saskatchewan are jubilant over the report that the permanent right-of-way through the town has been finally determined. Surveyors are now working in town and the proposed line will pass along Inglis avenue just between the Presbyterian and the English churches as formerly intended, or, thought to be, the course the company would adopt. This shows that the C. N. R. are going to do the right thing, and will endeavor to give the Fort adequate railway facilities. We are informed on very good authority that the line now being run by the company's engineer will be extended to the cross-

ing point on the river, and that everything will be got in readiness for the building of the bridge next spring. As far as we can learn the crossing will be at a point near Caradenden's and not at Point-le-Pie.

Word comes to us that Mr. J. D. McArthur of the C. N. R. was recently at Woodroffe's place, about 22 miles east of the Fort and it is rumored will shortly let a contract for 10,000 bushels of oats and 200 tons of hay, to be used by the contractors on the C. N. R. work. The right-of-way will be cut out right through to the Fort this fall, on which work a large number of men will shortly be employed.

R. B. BENNETT

As a Lone Star Attraction at the  
Thistle Rink on Wednesday night

Robt'n. Haultain, Bennett! First, the premier of a province in the full enjoyment of all the dignity of complete autonomy; next the premier of a more territory, without the dignity and with only twice the revenue of the province; and now, lastly, and lastly, a would-be premier of this same territory. All come to explain to the innocent Edmonton elector how he should mark his ballot. When Mr. Robt'n came the idea was that Mr. Oliver would be out of business, if he could only be beguiled into the trap. To that end a carefully worded opistle was addressed to him by the secretary of Mr. Secord's committee, inviting him to come—and be demolished. The result need not be repeated here.

Next came Premier Haultain, riding the hobby horse of provincial autonomy. No formal invitation to Mr. Oliver this time, merely an invitation on the posters; but that was good enough—quite good enough.

When it was announced on behalf of Mr. Secord that there would be a grand rally of Conservatives in the Thistle Rink on Wednesday evening the members of his committee were approached officially by members of Mr. Oliver's committee with the enquiry as to whether Mr. Oliver would be given an opportunity to speak or not. After some consideration the reply was given that the meeting was for speeches in support of Mr. Secord only.

Mr. Oliver's supporters then arranged for a meeting in the Robertson Hall, at which addresses in support of Mr. Oliver's candidature will be delivered.

On Monday afternoon dodgers were distributed announcing that Mr. Bennett would be the speaker in the rink on Wednesday evening.

Confidence must indeed have sunk to a low ebb when the silver-tongued speaker of the ambitious city followed the illustrious example of the wily premier of the blizzard province and declines discussion.

**A CAMPAIGN LIE NAILED**

At East Clover Bar and at Warden Dr. McInnis, speaking on behalf of Mr. Secord, is reported to have told the doctors that the Grand Trunk Pacific bargain provided for the free admission of 40,000 Chinamen to work on the railway. The Dr. proceeded to amplify on this statement by showing the difference to the farmer between having the home market furnished by 40,000 white laborers, and that furnished by 40,000 Chinamen.

In regard to this statement it needs only to be said that there is not a line in the contract permitting the free immigration of Chinamen that the \$300 tax which must be paid by Chinamen arriving in the country, and which was fixed two years ago, stands absolutely as a first.

What credence is to be given the premises or assurances on any subject—more especially the railway question—of men who will make such statements as are mentioned.

## MEETING OF GERMAN ELECTORS

A large meeting of German speaking electors was held in Oliver's committee rooms last night. G. Korman, editor of the German Herald, took the chair, and opened the proceedings. A short address was delivered by Mr. Oliver in English, which was followed by addresses in German by Rev. A. Hagar, the chairman, and others. The greatest unanimity and enthusiasm prevailed. The meeting concluded with cheers for Oliver and the railway.

## FATAL SHOOTING

Hollowe'en Pranks Anger a Man who Shoots on a Number of Young Men Killing one of his Number. Deceased Formerly Lived in Edmonton.

The village of Leduc will have occasion to remember Hallowe'en, 1904, for some years to come. A resident of that village, to-day lies dead in Edmonton, the result of reckless shooting by a man who feared Hallowe'en pranks.

Just about midnight a number of young men, among whom was Alex V. Reid, were walking quietly past Klumbies' blacksmith shop. Without any warning a man in the shop fired on the party, Reid receiving the full charge in the left side. His companions picked him up, carried him to the hotel and summoned medical aid. It was then seen that his injuries were very severe and it was decided to take him to Edmonton. A rig was fitted and Dr. Sutherland and J. W. Tipton drove Reid to the city. They arrived at the Public Hospital shortly after two o'clock and a few minutes afterwards Reid expired.

He had received the entire charge at close range in his left lung. His arm was fairly riddled with shot.

Immediately after the shooting a raid was made on the shop. Jno. Spaulen, George Klumbies and a stranger in Leduc, the man who did the shooting, were taken into custody. The gun and also the empty cartridge were secured.

Alex V. Reid was a young man twenty-eight years of age. He worked in the Great West Saddlery Edmonton, for eleven months, leaving here on October 3rd for Leduc to start in business for himself, having purchased the business of Jno. W. Turner. Mr. Reid, who was an exemplary young man came to Edmonton from Walla Walla, Washington. His home is in Eganville, Eastern Ontario.

The name of the man who did the shooting is Gustaf Malinowski, a recent arrival in the village. It is stated that he had heard tales of former Hallowe'en pranks, in Leduc, and was worked up over them. Corporal McLeod went to Leduc this morning to bring Malinowski to Edmonton.

## TALK IT OVER

Yes, talk over the question of the best food to give your baby with every one who can help you. Especially talk it over with your doctor. You may have been fortunate during the past summer, but you know of very many mothers who have had serious trouble with their children because the right food could not be found for them. You remember the experiments they made like constant change from milk to oat food or another, and the struggle and danger which it all meant.

## Scarcity of Teachers

Letter: The Territorial Department of Education has just announced that the extra session of the Regina Normal School for the training of teachers for first and second class profession-

al certificates will be held commencing January 3rd, 1935. Owing to the recent rapid increase in the population of this part of the Dominion and the consequent organization of new school districts, there at present exists an exceptional demand for trained teachers.

In the year 1903 no less than 157 new school districts were formed and it is estimated that 300 new teachers were required to take charge of the schools and to replace those who had dropped out of the profession. This year no less than 180 new districts have already been organized and it is expected that when the figures are totalled at the end of the year they will reach 250. The Department of Education fully expects that 400 additional teachers will be required during the year 1935. To aid in meeting this demand an extra session of the Territorial Normal School was decided only a year or two ago and Eastern teachers who have not had Normal training will be admitted upon application.

## The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres more or less.

ENTRY.—Entry may be made for the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3 or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres substantial fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to enter them, to patent on or before the 2nd June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior. N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

## AT THE RIFLE RANGE

### LAST SHOOT OF THE SEASON

The winners in the different contests.

A highly successful season.

The final practice of the Association was held on Saturday afternoon. Ammunition being run out, a small supply was procured from the Fort Saskatchewan association. Which was asked out by odd lots from former practice, brought in by several of the members, who suffered in consequence, as there were quite a number of different makes among these, and the variation in strength made some erratic shooting, causing some exasperation when a "miss" was signalled between bulls' eyes. As the cause was known, however, it was all taken good humoredly, and it was with regret that the members present bade farewell to the range for the season. All look forward to 1905 with pleasant anticipation, and hope that some arrangement can be made among the employers of labor for a Wednesday half holiday or sufficient early closing of places of business on one or more evenings of the week during midsummer to enable a number of young men, who desire to become proficient in the use of the rifle, to find the necessary time therefore.

About a dozen members were present, and the scores of all who completed the ranges are as follows:

200 500 600 Yds.	
P. McNaughton	23 24 29-80
S. S. Brown	23 25 33-80
W. S. Weeks	28 33 29-81
W. E. Hart	28 25 27-80
H. B. Spratt	29 25 27-80
C. F. Newell	29 21 21-77
F. T. Edwards	27 27 14-68
F. A. Oshroff	26 17-67
G. A. Reid	16 15-66
F. H. Kitten	27 16 16-68
T. McWhinnie	27 16 16-68

During the second stage of the 600 yards the wind, which had been fairly steady, became quite gusty, causing small scores.

The model competition, which has been proceeding since the middle of July, closed with Saturday's practice and the results are appended, scoring being by points for the place obtained at the regular Saturday practices:

**AGGREGATE SERIES.**  
Open to all members.

points av. score  
1-P. McNaughton 26 85 1-2  
2-S. S. Brown 23 83 1-13  
3-Wm. Pearce 8 83

The tie in the above series between Moors, Pearce and Gibbard for third place was decided by the average, Mr. Gibbard's being only 81 1-2.

**300 YARDS SERIES.**  
Open to all members.

points av. score  
1-S. S. Brown 24 74 28 1-9  
2-P. McNaughton 9 27 1-2

**200 YARDS SERIES.**  
Open to junior members only.

points av. score  
1-F. H. Kitten 17 25 1-10  
2-C. F. Newell 10 26

The finish for first place in the first series on Saturday, proved very close and exciting, the last two shots deciding what would otherwise have been a tie; but although the scores were both 86, yet Mr. McNaughton's being the better score at the long range decided the matter in his favor.

The tie between Messrs. Newell and McWhinnie for second place in the junior 200 yards, both last week and this was decided by the latter's getting an extra in Saturday's score, whereas Mr. Newell had nothing less than a "nipple" thus breaking the tie and giving Mr. Newell the place.

Mr. McWhinnie has the honor of having tied for second place in this series.

Another season's practice will make expert shots of several junior members. Unfortunately, several young men who were doing very well at the beginning of the season have been compelled by lack of time to abandon practice. We hope they will be able to make arrangements for regular practice next season.

Aside from the consideration that every man capable of serving his country should be able to handle a service rifle with fair proficiency, those who have the time sufficient for it will find rifle shooting a deeply interesting study and a pleasant recreation.

—All Saints' Day.

—Hockey meeting in the Imperial Hotel this evening.

—The regular meeting of the city council will be held this evening.

—John Shannon, a carriage builder and painter from Ontario, is preparing to open up a similar business on Fourth street west.

—A great rally will be held in Robertson Hall on Wednesday, tomorrow evening, to be addressed by Frank Oliver and others. Everybody is invited.

—W. F. Stevens of Clover Bar, has sold to the Dowling Mill Company a head of wheat which tested 66 lbs. the best received this year, and for which he was paid the top of the market.

—Hallowe'en passed off quietly in Edmonton. A few of the usual pranks were perpetrated, but the city was well policed, and there was much less rowdiness than is usual on Hallowe'en.

—Mr. and Mrs. W. A. Doyl entertained the Knights and Ladies of the Maccabees last evening at their home on Namayo avenue. Games were the order of the evening, typical of Hallowe'en. Refreshments were served.

—A. McCormick, of Durham, Ontario, is in the city to-day. He has recently visited the Red Willow settlement east of Lacombe, where he selected and secured four homesteads for eastern friends. Mr. McCormick is delighted with Western Canada, Alberta, and the city of Edmonton in particular.

—Wetaskiwin Times.—A man named Dick was arrested on the train here Saturday last by Serg. Phillips on a charge of holding up and demanding an apology at the point of a revolver from two colored gentlemen. He was brought up before the J. P.'s Monday and was sent up for trial.

## PERSONALS

Ed. Sibbald leaves on Monday next for Las Le Biche, where he will spend the winter.

Mrs. Dr. Forin returned to the city last evening from a visit to Collingwood, Ontario, and other points.

## ELECTION RETURNS

The Edmonton Young Liberals will give the public the election returns in an up-to-date manner. A large canvas will be stretched on the block opposite the Liberal committee rooms and the returns flashed on this as received. An up-to-date lantern has been secured and between the returns, views, cartoons, etc., will be shown, affording a continuous entertainment.

The Liberal committee have made arrangements to get the returns over the Government telegraph line from Qu'Appelle and in this way will get the returns considerably earlier than otherwise.
